

Poll Dorsets Lots 1-141 White Suffolks Lots 142-197

Welcome to our 21st Annual Felix Rams Lambplan Ram Sale.
 All rams will be sold individually and in catalogue order. White Suffolks will be penned at the front of the shed to allow inspection to continue while the Poll Dorsets are being sold.

Animal Health / QA

MN3 and 2nd Generation Approved Vaccinated for Ovine Johnes Disease - Certificate No NS 18162
 Ovine Brucellosis Accredited Free - Certificate No. CW 86/15
 All lambs are vaccinated with Gudair at marking, Eryvac x 2, and the rams have been given a full vaccination program with Glanvac 6 in 1, the last vaccination 5/07/19 and were drenched with Pyrimide 5/07/19.
 Felix Rams is a closed flock, and the sheep are declared to be footrot and lice free. Sheep Health Statement on display, and available if required. LPA NVDs will be provided with all rams.

Across Flock Lambplan averages for the 2018 drop (all asbvs and indexes Lambplan run 01/08/19)

	BWT	PWT	PFAT	PEMD	PWEC	TCP	LEQ
141 Felix PD Sale Rams	0.26	16.9	-0.31	3.1	-20	149.3	144.0
PD Breed 2018 Average	0.40	13.7	-0.59	2.0		135.6	128.3
56 Felix WS Sale Rams	0.25	17.8	-0.09	2.6	-30	152.3	150.6
WS Breed 2018 Average	0.33	14.8	-0.39	1.7		138.9	134.3

Sheep Genetics Lambplan Terms

- BWT** “birthweight” – lower birthweight values will producer lighter birthweight lambs
- PWT** “postweaning weight” - a higher pwt value ram will produce faster growing progeny
- PFAT** “postweaning fat” – the more negative the value for pfat, the leaner the progeny will be
- PEMD** “postweaning eye muscle depth” – rams with positive values for pemd will have more muscle especially in the high value loin area and hind quarter, and better overall carcass shape.
- PWEC** “postweaning worm egg count” – a lower (more negative) value for pwec indicates the progeny will have lower worm egg counts and be more resistant to developing a worm burden
- Acc** percentage accuracy of the ASBV or index
- s/t** whether the animal was born single, twin or triplet
- DOB** date of birth

Indexes are designed to help meet different breeding objectives and programs. They are simply a guide to assist in selection, however when doing so producers should first consider their own breeding objective. This will involve considering your current ewe base, the environment they are run in and the target market for their progeny. Rodney is happy to discuss this at any time.

- Trade \$ Index** optimizes fat at 0, no emphasis on birthweight
- Export \$ Index** optimizes fat at -1.5, no emphasis on birthweight
- Terminal Carcase Production (TCP)** growth and muscle, minimal emphasis on fat, no birthweight, maintains eating quality, improves lean meat yield

At Felix Rams all the important data for these rams is collected before they are 7 months of age – reflecting what you aim to do in your prime lamb enterprise. They are run commercially in large management groups mainly on dryland lucerne based pasture, so their performance is what you will see in your paddocks. What you see is what you get. Our aim is to breed sound rams to efficiently produce outstanding prime lambs.

Our commitment to accurate data collection and effective management groups and their use in estimating the breeding value of rams is second to none.

Please join us for a cuppa from 10.30am, BBQ before the sale, and some refreshments at the conclusion.

Rodney, Liz, Isaac and Val Watt

NB Ram breeders. The minimum price for a ram to be individually registered as a stud ram will be \$3000. Not all rams are available for individual registration.

Memo of Poll Dorset sires used in 2018													
MV 160114	Melton Vale 160114 - Meat Elite Young Sire Team 2018, great muscle and eating quality												
OW 120135	Old Woombi 120135 - MLA Resource Flock sire, good balance of growth and muscle, excellent eating quality												
OW 150042	Old Woombi 150042 - MLA Resource Flock sire, great balance of growth and muscle, good eating quality												
W163542	Woolumbool 163542 - MLA Resource Flock sire, Meat Elite Young Sire Team 2018												
160282	by 150545, Meat Elite YST 2018, MLA Resource Flock, 288 progeny in 11 flocks, BWT 0.13, PWT 18.0
