

## 25th Annual On Property Lambplan Ram Sale 'Springvale' 349 Adams Lane Greenethorpe 2809

Thursday 7th September 2023  
Sale starts 1 pm Sharp

AuctionsPlus

### Poll Dorsets Lots 1 - 150 White Suffolks from Lot 151 - 212

Welcome to the 25th Annual Felix Rams On-property Lambplan Ram Sale.

The sale will also be simultaneously interfaced on Auction Plus.

All rams will be sold individually and in catalogue order. White Suffolks will be penned at the front of the shed to allow inspection to continue while the Poll Dorsets are being sold.

#### Animal Health / QA

MN3 and 2<sup>nd</sup> Generation Approved Vaccinated for Ovine Johnes Disease - Certificate No NS 21128, Ovine Brucellosis Accredited Free - Certificate No. 76316

All lambs are vaccinated with Gudair at marking, Eryvac x 2, and the rams have been given a full vaccination program with Glanvac 6 in 1, last vaccination Eryvac+B12 11/08/23 and were drenched with Trifecta 11/08/23 Felix Rams is a closed flock, and the sheep are declared to be footrot and lice free. A Sheep Health Statement will be displayed, and available if required. LPA NVDs will be provided with all rams.

#### Lambplan averages for the 2022 drop (all asbvs and indexes Lambplan run 01/08/23)

Averages	BWT	PWT	PFAT	PEMD	PWEC	LMY	IMF	TCP	LEQ
<b>150 Felix PD Rams</b>	<b>0.27</b>	<b>17.9</b>	<b>-0.36</b>	<b>3.4</b>	<b>-16</b>	<b>4.5</b>	<b>-0.32</b>	<b>158.8</b>	<b>155.5</b>
2022 PD Breed	0.39	14.4	-0.54	2.2	-18	3.6	-0.53	140.7	134.8
<b>62 Felix WS Rams</b>	<b>0.22</b>	<b>19.2</b>	<b>0.08</b>	<b>3.2</b>	<b>-43</b>	<b>4.0</b>	<b>-0.16</b>	<b>162.4</b>	<b>163.4</b>
2022 WS Breed	0.31	15.9	-0.27	2.2	-25	3.4	-0.34	145.4	141.6

**BWT** "birthweight" – lower birthweight values will produce lighter birthweight lambs

**PWT** "postweaning weight" - a higher pwt value ram will produce faster growing progeny

**PFAT** "postweaning fat" – the more negative the value for pfat, the leaner the progeny will be

**PEMD** "postweaning eye muscle depth" – rams with higher values for pemd will have more muscle especially in the high value loin area and hind quarter, and better overall carcass shape.

**PWEC** "postweaning worm egg count" – a lower (more negative) value for pwec indicates the progeny will have lower worm egg counts and be more resistant to developing a worm burden

**IMF** "intra muscular fat" rams with higher (more positive) imf will have better eating quality

**LMY** "lean meat yield" a higher lmy asbv ram will sire higher lean meat yielding lambs

Indexes are designed to help meet different breeding objectives and programs. They are simply a guide to assist in selection, however when doing so producers must consider their own breeding objective. This will involve considering your current ewe base, the environment they are run in and the target market for their progeny. Our recommendation for trade or heavy are a basic indication of the target market a ram may suit. Rodney and Isaac are happy to discuss this at any time.

We do not recommend lamb producers using Terminal Carcass Production (**TCP**) or Lamb Eating Quality (**LEQ**) for anything more than a basic guide. Both TCP (30%) and LEQ (62%) have too much emphasis on the low accuracy traits of IMF and Shearforce. This does not mean that we are not trying to improve eating quality, rather their value to producers is overdone in the calculation of these indexes. This is despite more than 95% of our offering being in the top 20% for both indexes. We believe you can achieve a better balance of traits by looking at the asbvs.

At Felix Rams almost all the important data for these rams is collected before they are 7 months of age – reflecting what you aim to do in your prime lamb enterprise. The rams are run commercially in large management groups mainly on dryland lucerne/perennial grass pasture, so their performance is what you will see in your paddocks. What you see is what you get. Our aim is to breed sound rams to efficiently produce outstanding prime lambs.

Our commitment to accurate data collection and effective management groups and their use in estimating the breeding value of rams is second to none.

*Rodney, Liz, Isaac and Val Watt*

**NB Ram breeders.** The minimum price for a ram to be individually registered as a stud ram will be \$3000. We retain the right to collect semen for our own use at our expense from any ram individually registered.

<b>Memo of Poll Dorset Sires used for 2022 drop</b>	
170101	By Marocara 150049, MLA Reference Flock, low birthweight -0.03, PWT 18.7 top 5%, PEMD 3.7 top 5%. Dam has been our best ET donor.
190141	By Felix 160494 (sire of world record price Poll Dorset ram), first used as lamb, early maturing outstanding growth PWT 20.4 top 1%, muscle PEMD 3.4 top 10%, imf top 5%, LEQ top 1%. Meat Elite Young Sire Team, MLA Resource Flock. Popular semen sire with progeny in 18 flocks

<b>Memo of White Suffolk Sires used for 2022 drop</b>	
200145	By Ashmore170986, Superwhites Young Sire Team 2022, progeny in 12 flocks, low bwt and good balance between growth, muscle and eating quality.
201156	By Felix 191175, PWT 21.4 Superwhites Young Sire Team, progeny in 16 flocks, sired top priced ram 2022 sale
210385	By Felix 200280, used as a lamb, top 1% for pwt, pemd and leq
210725	By Langley Heights 180231, used as a lamb, top 10% for pwt, pemd and imf, top 5% LEQ
210815	By Ella Matta 190030, used as lamb, top 1% LEQ, top 5% PWT, top 10% pemd, pwec, imf
210906	By Langley Heights 1802321, used as a lamb, top 5% pemd, top 5% LEQ
211102	By Felix 200145, used as lamb, top 1% imf and LEQ, top 5% pwec
211313	By Felix 200145, used as lamb for spring drop (ewe lambs), top 1% pwt and LEQ, top 5% imf
FA180178	Farrer 180178 by Felix 151229, semen sire, top 1% leq, great pwec, top 10% pwt
LH180231	Langley Heights 180231 by LH 160376, semen sire in 28 flocks, good balanced asbvs

Both our Poll Dorset and White Suffolk flocks are 5 Star for Sheep Genetics Data Quality Score.

We use a combination of young sires and well linked mature sires along with DNA testing to provide high accuracy ASBVs. Semen used by Meat Elite (PD breeding group) and Superwhites (WS breeding group), along with other semen sales, sires in the Resource Flock, and the use of AI sires increases our linkage in the SG database and the accuracy of the ASBVs.

Report: Genetic Trends  
 Analysis: TERMINAL  
 Analysis date: 01/08/2023  
 Flock code: 163677  
 Flock name: FELIX

Total animals by drop Poll Dorsets

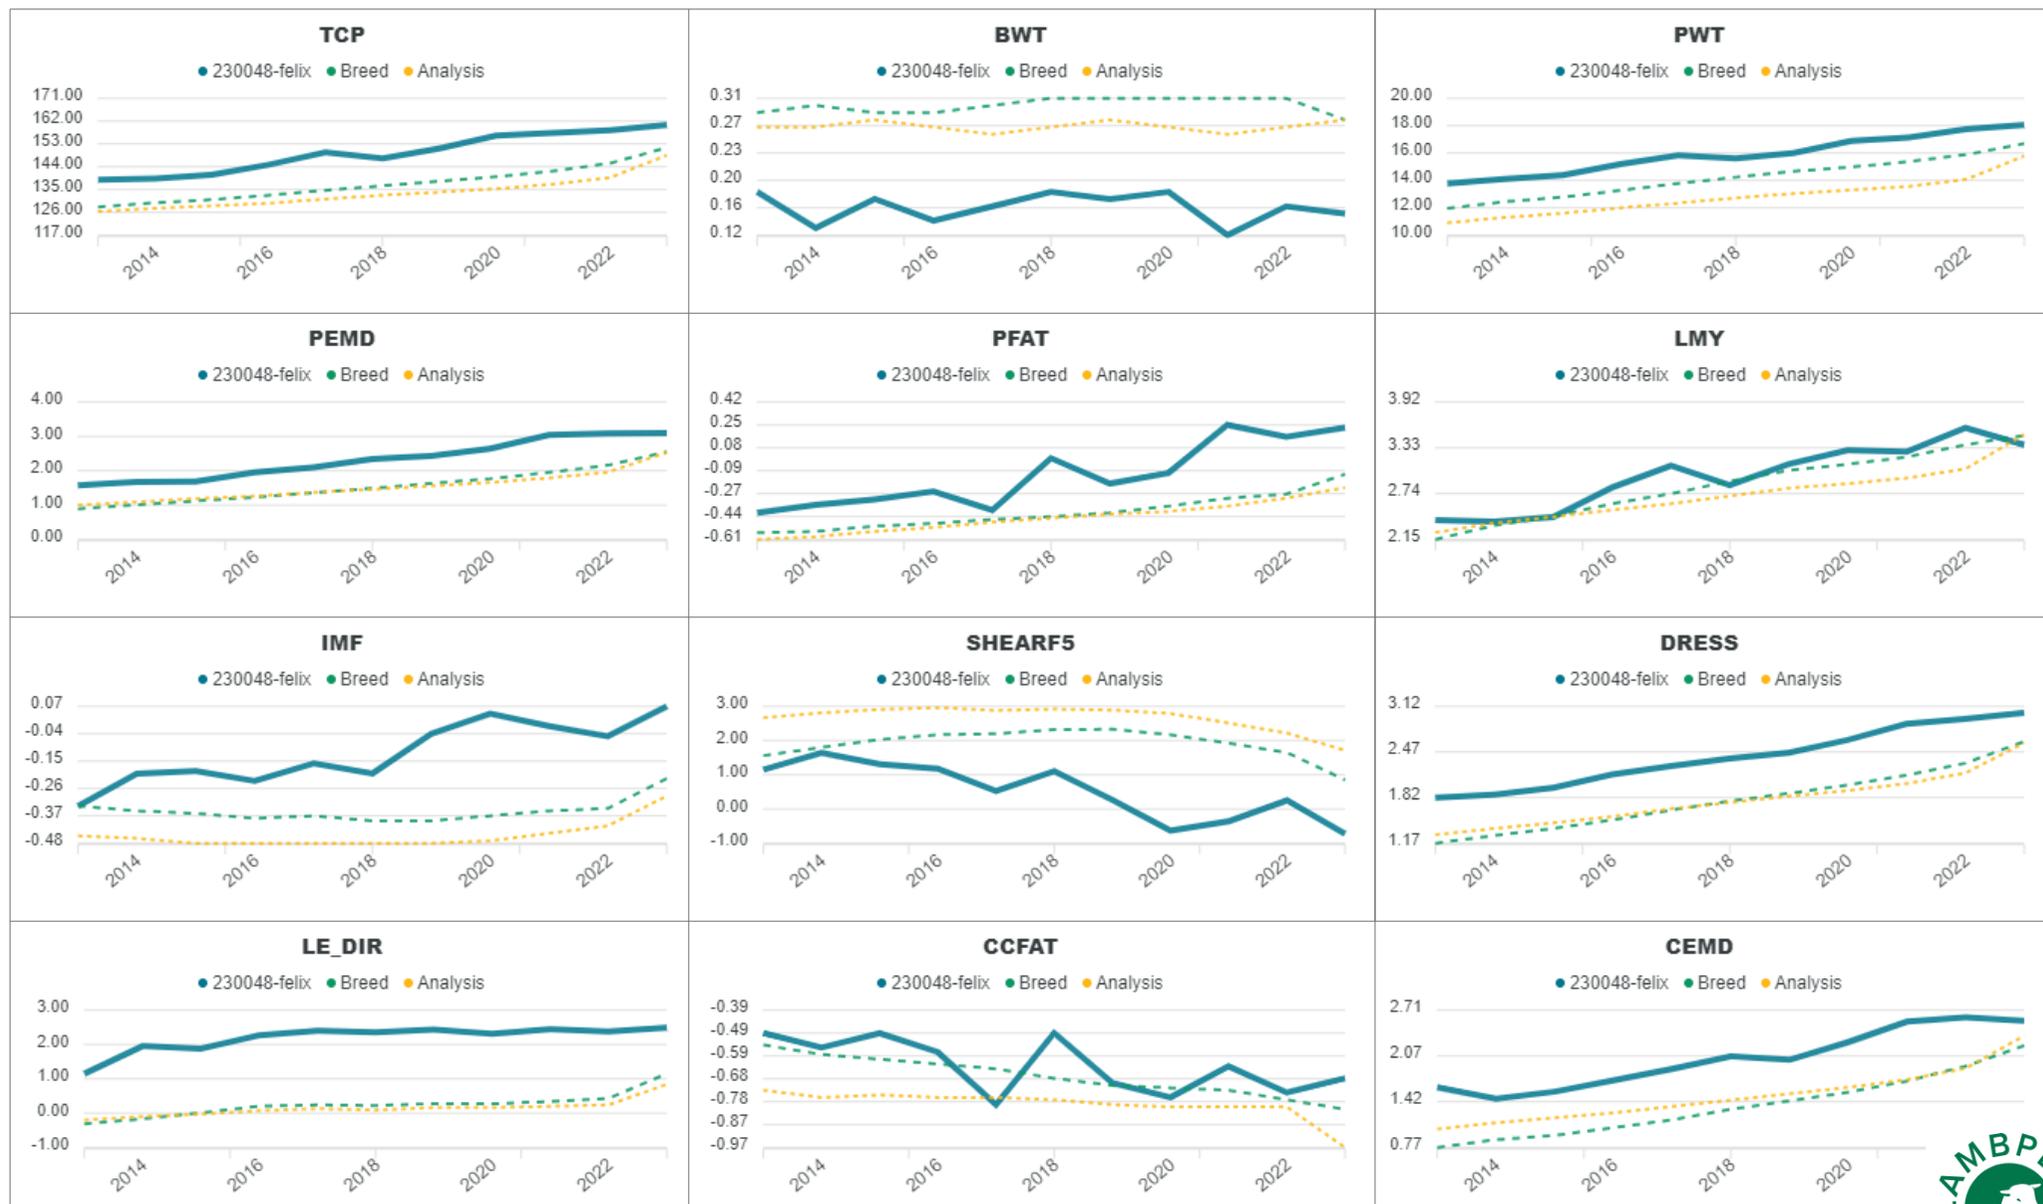

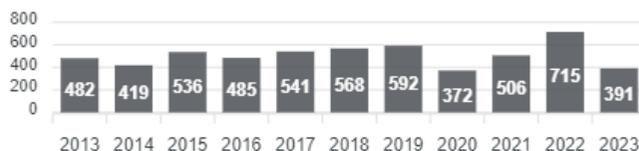

Reports are prepared using data supplied by breeders and/or accredited operators. We cannot guarantee the accuracy of this data. ASBV's are designed to estimate genetic merit of animals from the data supplied. The reports are provided to assist breeders but no liability is accepted for the outcome resulting from the use of this information.

**Report:** Genetic Trends
